

Oak Hill

LAWN CEMETERY & CREMATORIUM

Summer 2023

COMING SOON! THE NEW BEREAVEMENT SERVICES COMPLEX

The exterior to the Crematorium is finished with some final touches being applied to the interior. Decoration to the offices has been completed and the Bereavement Team are preparing to move in. The Cemetery road network has been completed and lighting columns, bollards and signage have been installed around the site. New memorial areas have been introduced to the Cemetery, each with their own identity and individual landscaping designs bearing a pretty, floral name. Careful consideration has been given to the placing of the bespoke memorial plaques and ornaments in each memorial garden. The Columbarium and adjacent Rose Garden areas are being improved with the pathways having undergone a deep clean and a general tidy up. A Reflection Pond has been installed next to the Chapel with associated landscaping. An attenuation pond lies at the front entrance.

THE TEAM AT HATFIELD

Donald Mackenzie – Project Manager • Greg Bowden – Site Manager • Richard Houghton – Quantity Surveyor

INTRODUCING THE MULBERRY TREE GARDEN

This attractive Mulberry Tree with realistic steel weathered branches and glass leaves, can be inscribed with a personal message for loved ones which includes up to 150 characters including spaces. It will be situated near the Columbarium.

Top & Right: Chapel Area
Below: Car Park

Stakeholders will be given the opportunity to attend open days in September. The Council will be announcing details of this in August.
